CONCENTRATES.

Lew Humphries, consulting engineer

of the Mason Valley Copper company, returned yesterday from a five weeks' business trip in the east

A tungsten mill is soon to be erected

at Round Mountain, according to Dr. Carl F. Gohlin, manager of the Melvin and Mammoth groups of tungsten claims in that camp. "Borax" Smith

claims in that camp. "Borax" Smith and a number of California capitalists

Frederick Lyon, assistant managing

director of the United States Smelting,

Refining & Mining company, leaves to-day for California, from which place he will later go to Europe for a short vacation. Mr. Lyon has been in Salt Lake City for several days looking over the conditions of the company and

Work will be resumed within a day

or two on the Eva property in the Mt.
Nebo district. The heavy snows
stopped the work as the mine is
two miles up a steep and rocky
canyon. Ore has heretofore been taken

According to L. N. Morrison, who re-

turned from Beaver county yesterday, the King David shaft at the 300-foot

level cut four feet of ore which carries

good values in copper and silver. The ore is an iron sulphide showing copper chalcopyrite. Sinking has been continued and at the same time the ore is being drifted on. The Indian Queen tunnel is now in 2,760 feet and has encountered a vertical section of lime and

countered a vertical section of lime and spar, which is believed indicative of more interesting developments shortly.

At a meeting of the board of directors of the Montana Mining company yesterday it was decided that Duncan MacVichie, J. C. Jensen and E. R. Woolley be empowered to purchase a

hoist and full equipment for the com-pany's property in East Tintic. A three-compartment shaft is now down 30 feet and for the last 15 feet has had

MINING, BUSINESS AND STOCKS.

DEAL CLOSED FOR BINGHAM MINES ORE

American Smelting and Refining Company Gets Contract to Treat Product of Dalton and Lark Mine.

After negotiating and figuring with various ore treating companies for the past three months, the Bingham Mines company has at last entered a contract with the American Smelting & Refining with the American Smetting & Relining company for the treatment of its ores from the Dalton & Lark mine. The ore from this property is chiefly lead.

After the visit of President Graves last January work was commenced on the property through the company, as well as by leasers. From Feb. 1, up to a short time ago the company was selling In time ago the company was selling its ore on the open market to the highest bidder. This is declared to have been unsatisfactory and for a time the ore was diverted to the Knight smelter at Tintic. This it was said was only a temporary arrangement. Since May 15, the ore has been sent to the American Smelting & Refning com-

the American Smelting & Refining com-pany's smelter at Murray. Later terms were agreed upon that are asserted to

be satisfactory to both sides.

The terms of the contract have not been made public, although it is understood that the Bingham Mines company is receiving a much better return for its product than formerly and that with the contract made it will be able to go ahead much faster with its work.

TRADING IN STOCKS SLOW.

But Little Activity Shown in Securities On Salt Lake Mining Exchange.

Stocks showed but little inclination o move on the Salt Lake Mining exthange today, although a fair volume of business was done. Columbus Con-solidated showed a little activity and

iron Blossom was a ready seller.
Throughout the morning session the market was featureless. Scarcely any of the stocks showed an inclination to nove up or down. During the morning lession 64,650 shares of stocks changed hands and the amount represented was

On the curb market Pioche King sold tt 30 cents and Bingham Central Stand-trd was disposed of at 24½ cents. A sid of 3 cents was made for North Coloado and Emma was offered at 5 cents

MUGH ACTIVITY IN PIOCHE DISTRICT

Prince Consolidated Shins Ore-Output of District Now Better Than

Twenty-five Cars Each Day. (Special to the "News.")

Pioche, May 25.—Considerable activity s being manifested in the Prince district, especially at the Golden Prince and the Gold and Silver Prince. At the latter property a new 25-horse power "Alamo" hoist with compressor has just been installed, and the shaft is now about 80 feet deep and devel-opment is being vigorously prosecuted under the able management of George

the same parties, managaness ore has been encountered in the shaft at 430 icet. The west drift from the 490 level has encountered ore at 140 feet the shaft, and fair values are obtained.

The Ploche King shaft is going down in record time, and will soon reach the 390 level. The management has been greatly encouraged by the unexpected mineralization already found, and the more so on account of the exceptional

The Prince Consolidated has shipped 100 tons of low grade manganese ore to the Tintic smelter during the last week, and it is the expectation of the management to make continuous ship ments from now on of both low and high grade.

OPEN TWO VEINS.

On the 550 level a large body of ore has been exposed for about 150 feet and also a bedded vein on the 400 which is 10 feet in width.

The Mendha-Nevada shipped one car last week, and as the Nevada-Utah is shipping two and three cars every day, the total output last week was between 20 and 25 cars, which is only a fraction of what can be done when several more properties—now only in the development stage—become regular

the development stage—become regular shippers.

Dean R. Low, president of the Gold & Silver Prince and Manager George E. Coxe of the same company, are both building homes between the Golden Prince and the Gold & Silver Prince ground. The excavation work has already been completed and the contracts let.

Allen H. Rogers, a mining engineer, who is believed to have been here in the interests of the International Smelting & Refining company, has departed, Mr. Rogers has been in the camp about two weeks and covered much the same ground as James Breen, Duncan Mac-Vichle and William Bradley did when here. It is believed that all have been representing smelter interests who are after the ores from Pioche.

GETS NEW HOIST. Manager J. W. Taylor of the X-Ray Mining company has closed a deal for a 40-horsepower gasoline engine and compressor for the property. The Boston & Pioche, controlled by the Scott Mines company, is working a force of 20 men on development. This company has mapped out an active development campaign and there will be no let-up in the vigor being displayed there during the present year.

Supt. Earl R. Pembroke has more than a carload of high grade silver-lead ore in the bins which was encountered.

ore in the bins which was encountered during the regular progress of devel-

MORE MINING COMPANIES.

(Special to the "News.") Provo, May 25.—The Utah-Centennial Mining company has filed articles of incorporation with the county clerk. Pleasant Grove is the general place of business. The capital stock is \$50,000, in shares of the par value of five cents The company owns the following mining claims in American Fork canyon: Uncle Sam Nos. 1 to 7, both inclusive, South Humbug, Silver Plume and Florence. The directors and offi-cers are: J. E. Thorne, president; cers are: J. E. Thorne, president; Robert Anderson, vice president; J. W. Thorne, secretary and treasurer; Len West and Nathaniel Pierce, directors, Articles of incorporation of the Sil-verado Mining company have been filed. Goshen is named as the principal place of business. The capital stock is \$50,000 in shares of the par value of five cents based on the valuation of the C." and several other mining claims, situated near Goshen. The di-rectors and officers are: D. B. White, president; Edward Lowis, vice presi-dent; Rex White, secretary and treas-urer, John Leyshon and H. Blades.

BUYS INTO TINTIC STANDARD. A, N. Holdaway Takes Over Big Block

In East Tintic Property. It is understood that A. N. Holdaway has taken over a block of 100,000 shares of stock in the Tintic Standard proper-ty, controlled by Greely Snyder and E. J. Radditz. This insures the property considerable working capital and will mean that the company will short-ly add to its already valuable territory. With the addition of several other prot-

THE TRUTH ABOUT KIDNEY TROUBLE

(SEDIMENT.)

Sediment that can be seen with the unaided eye is not usually an evidence of a serious stage of kidney disease. Neither is a smoky appearance of the eliminations. Both of these symptoms are often found in people who are otherwise well, and they commonly disappear with the exciting cause if the patient within a week or two of its discovery will diet, avoid colds and live carefully.

There are times in the lives of nearly all of us in which these symptoms have

There are times in the lives of nearly all of us in which these symptoms have appeared and disappeared.

If, however, they persist it should be given thoughtful consideration in view of the declarations of medical writers that about the sixth month inflammation of the kidneys becomes chronic and is then incurable. The Text Books having no treatment that will allay inflammation of the kidneys, physicians prescribe a diet, and possibly an eliminant, and if early enough it is quite likely to be effective. But the new discovery, Fulton's Renal Compound, the success of which is due to the fact that it is the first thing that allays kidney inflammation, is effective to aid nature to throw off the inflammation in about 87 per cent of the cases in all stages.

As the inflammation more readily yields the first few weeks of the formative period it is good judgment not to delay. If it has been unconsciously developing for some time and is in the chronic stage, there is nothing that will help at all except Fulton's Renal Compound, and even then the recovery will be slow.

erties in the district it is certain that the company will then own the most voluable territory in the district.

The company is now making considerable progress toward the sinking of a new 600-foot shaft to take the place of the present incline shaft. The shaft is to be put down to the south of the present shaft and near the big iron blow out that is across the canyon from the present shaft.

The price at which the block of stock changed hands would be hard to even make a guess on, but it would be safe to say, no official figures being given out, that it was over 15 cents a share.

Mr. Holdaway is said to have taken pound, and even then the recovery will be slow.

be slow.

MARKET SHOWED NO DISTINCT TONE

James A. Pollock & Co., bankers and brokers, 6 west Second South street furnish the following, received over New York, May 25 .- The opening stock market today showed no distinct tone. Gains and losses of 1/2 to 1/4 were almost general and quite evenly divided. Ophir, 1.25@1.274; Mexican, 78@79; Gould & Curry, 7@8; Con. Va., 64@66; Savage, 17 bld; Hale & Norcross, 18 asked; Yellow Jacket, 55@56; Belcher, 50@51; Confidence, 70@80; Sierra Nevada, 27@28; Union, 80@31; Chollar, 5@6; Patosi 14 asked Dealings were small. A rise of a point in Denver & Rio Grande was the most

conspicuous change, The market drifted about rather aimlessly during the first hour. A slight reaction was succeeded by a general rally, after which the market eased off again. In only a few instances did the fluctuations exceed 1/2 point in the active stocks. Reading second preferred declined 1%, National Lead 1%, U. S.

declined 1%, National Lead 1% U. S. Pipe 1¼ and Erie 1. Railway Steel Spring advanced I. Prices sagged in a dull and heavy market but the movement was narrow except in the specialties. Minneapolis & St. Louis declined 2½, Western Maryland 1½, Chicago & Alton 1½ and Delaware & Hudson, Long Island, Sloss-Shefileld and Allis-Chalmers preferred 1. Canada Southern rose 3 and American Hide & Leather preferred 1.

Bonds were steady.

Prices began to harden slowly, Reading selling at its highest, and Wabash at a point over yesterday's close. Iowa Central sagged 1 and Carpet rose 3½.

The market closed heavy and dull. United States rose to 61, thus keeping up its daily record-breaking of the past week. St. Louis-Southwestern preferred, Minneapolis, St. Paul and Sault Ste. Marie and American Steel Foundries rose 1. Western Maryland gave way 3 and Southern Pacific and People's Gas 1.

30 feet and for the last 15 feet has had a fine showing in minerals, which although not commercial ore has been very close to it. President Roundy declared that the ground had the best surface showings of any in the district. As the shaft goes down his enthusiasm is strengthened that the company will have a big mine.

CHICAGO.

PRODUCE.

CHICAGO.

Chicago, May 25.—Wheat for May delivery advanced to new heights today when it sold on initial transactions at 1854 per bushel, which is nearly ic. above the best mark recorded yesterday. The fresh advance was due to covering by a few belated shorts. The mailer in general, nowever, showed easiness, with quotations a shade to 4 below yesterday sclosing figures. The market was bearishly affected by more favorable weather reports both in this country and in Europe. July, which opened at 1.184 to 4, advanced to 1.19, but dropped back again early in the day to 1.184. During early trading the May delivery held within the opening range of 1.344 to 1.354.

President E. B. Field, and General Manager E. M. Burgess of the Colo-rado Bell Telephone company are visiting with President Lane of the Bell company in this city, from Denearly training the many deepers within the opening range of 1.34% to 1.35%.

Corn opened weak, owing to exceptionally heavy local receipts. The market, however, quickly became strong on active covering by shorts, all deliveries advancing to new high marks of the season. May, which opened ½ lower at 74%, advanced to 74% and July after opening a shade higher to 4/4 % lower, at 70% to ½, sold up to 70%.

With the exception of May, the oats market showed weakness at the opening. Prices at the start were ¾ higher to ¼ lower. May opened at 62% and July at 55% to ¼. For a time the May delivery held at the opening figure but July eased off to 55.

Provisions were quiet and Steady. Prices at the start were unchanged to 5c. higher. State Editor Griffin Cochran of the Cheyenne Tribune is in town arrang-ing to enter the Rocky Mountain Bell Telephone company's service at Chey-R. J. McKay, first assistant general passenger agent of Toledo, St. Louis & Western Railroad at Chicago, is in Salt Lake today on his way east from the Pacific coast.

President Frank Knox of the National Bank of the Republic has returned from a three weeks' absence in the east, where he attended a special meeting of the executive computer of the American Bankers' as-

. higher. Wheat-Later in the day the July de

Sc. higher.

Whest—Later in the day the July delivery also rose to a new high mark, when it sold at 1.19½. The market became weak late in the session. May declining to 1.33½. At the same time July sold off to 1.17½. The close was weak at almost the bottom, with May ¼ lower, at 1.34 and July off 1½ at 1.17½ @¾.

Corn—Shorts continued active diders for corn all day and prices advanced still higher, May selling up to 75½ and July to 71½. The close was strong, with May up 1½ at 75½. July was ¼ higher at 70½ @¾.

Oats—Prices continued to advance until May had touched 63 and July 55. The close was firm, with May and July showing a net gain of ¼ at 62 and 55½ respectively.

Close—Wheat—May, 1.34; July, 1.17½ @¾; Sept., 110; Dec. 1.05%.

Corn—May, 75½; July, 70% @¾; Sept., 15% @¾; Sept., 110; Dec. 1.05%.

Corn—May, 62½; July, 55½; Sept., 45% @¾; Dec., 45¼ @¾; July, 10.87½; Sept., 1071½; Oct., II.00.

Ribs—May and July, 10.27½; Sept. and Oct., 10.32½.

Rye—Cash, \$5@0; May, \$7; Sept., \$1. Barley—Cash, \$5.00.

BUTTER AND EGGS. Chicago, May 25.—Butter — Firm. Creamerles, 22@24½; dairies, 23@24. Eggs—Firm. steady receipts, at mark, cases included, 23.88 cases; firsts, 20½; prime firsts, 21½. Cheese—Firm. Daisles, 13½.0½; twins, 13½.0½; young Americas, 14½.0½; long horns, 13½.0½.

UNIVERSITY NEWS

A valuable collection of Peruvian butterflies has been presented to the department of zoology of the univer-sity by U. U. Hiskey, of this city. The collection contains about three hundred specimens, which will be mounted during the summer.

The Scribbler's club will hold its an nual banquet this evening at the Cul-len hotel. R. L. Belnap, the president, and 16 others are expected to be in at-

The freshmen issue of the Chronicle The freshmen issue of the Chronicle made its appearance yesterday and reflects great credit on the staff, Jay Hyde, T. R. Chamberlain, Lucile Thurman, K. M. Pack, C. Y. Pfoutz, Margaret Parsons, Welthea Leamed, Alice Hurst, Wallace Woolf, Allyn Moser, Cecil Shores, Flora McCanne and H.

Two big black '10's placed about 70 feet above the ground on the chimney at the boiler house, is probably the last prank of the students for the present year. The figures are painted on white background, and the fact that fires have been constantly going in the boiler house adds to the mystery attending this latest student prank. The ques-tion as to how it was done will probably not be solved any more than the other tricks have been.

At a meeting of the faculty of the University of Utah yesterday afternoon it was decided to disbar the four stu-dents accused of carousing and attempting to paint the city of Logan red last week. The faculty will not let the students take part in athletics or represent the school in any way during the next year. The names of the young men who have been dealt with were not made public by the faculty. A meeting of the student body will

be held at noon Wednesday at which the members of the Dramatic club, the Chronicle staff and the debating team Chronicle staff and the debating team will be presented with pins and watch fobs, in recognition of their efforts in behalf of the university this year. Those of the Dramatic club who will receive a beautiful gold pin with the letter "II" inscribed on it are: Erma Bitner, Frank Johnson, Clifford Ashby, Esther Christensen, Vivian Tolkurst, Dora Johnson, Spencer Phillips, Victor Olsen, Lucile Thurman, Vera Rich and Roger W. Powers.

TO FORECLOSE LIEN.

J. A. Baldwin filed suit this morning in the Third district court to foreclose in the Third district court to foreclose a mechanic's lien which he holds on a house owned by J. A. Fritsch, which was built by E. B. Tyson. The lien is for \$202.60 for materials furnished by the plaintiff to Tyson who did the carpenter work on the house.

SUIT ON A NOTE.

Rachel Suttle filed suit this morning in the Third district court against John Beck and Matilda Beck in which she seeks to foreclose a chattle mortgage given to secure a promissory note. The principal and interest asked in the note amounts to \$563.
